

## EZ-LINK™ Mobile APP

Watlow's new EZ-LINK™ mobile app allows users to easily set up, monitor and adjust Watlow® EZ-ZONE® PM controllers via Bluetooth® wireless technology. The app is available free-of-charge from the app stores for phones and tablets, and provides access to the controller's parameters with fully spelled out names in plain text with help topics that explain each parameter and option.

When connected to a controller, the app's dashboard view displays up to 20 parameters. Users can configure which parameters appear on the dashboard view with the controller's custom home page. The all parameters feature in the app allows users set up the controller's inputs, control settings, alarms, outputs and other features and functions.

In addition to controller setup, monitoring and adjusting, the EZ-LINK mobile app provides many benefits to the user including password protection, alarm and error indicators, connection to Watlow for feedback and support and accessing device information such as firmware version, part number and serial number.

The app works with all 1/16 DIN EZ-ZONE PM controllers and limits with Bluetooth® wireless technology. This option is approved for use in the U.S., Canada, Japan and the European Union, with more locations coming soon.

### Features and Benefits

#### Remote access

- Connect to controllers up to 70 feet (21.3 meters away)

#### Ping feature

- Identifies which controller is connected when several controllers are within range

#### Password security

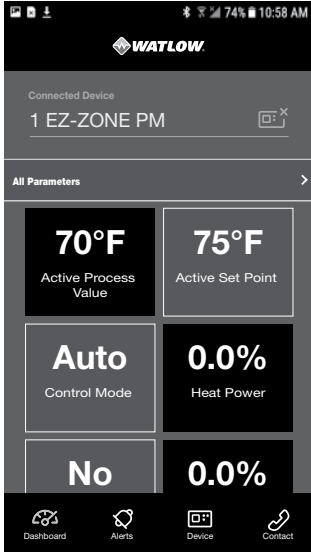

- Limits unauthorized access and unwanted changes

#### Controller naming

- Allows user to name the controller and easily find it again the next time

## EZ-LINK™ Mobile APP

### Illustrated Features

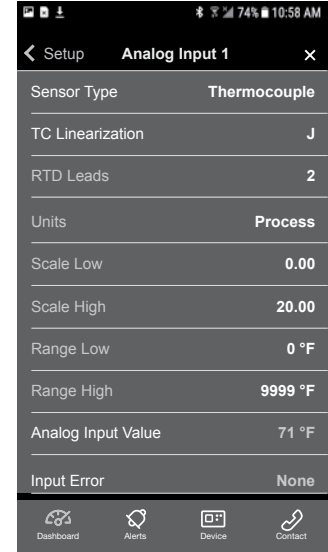

Provides access to controller's home page parameters

Decodes alarms, errors and messages
